Control No. 445157
11 September 1953

MEMORANDUM FOR: Recipients of IWG "R" Publications

SUBJECT: Designation of IWG/D-19 as Final IWG Report

1. A draft working paper on "Movement of Scrap Metals from the Middle East - 1952" (IWG/D-19 of 11 March 1953) was prepared by a Subgroup of the Intelligence Working Group in response to a request by the Transit Trade Working Group of EDAC. The IWG on 20 August approved the issuance of this paper as a final IWG report (IWG/R-11).

2. This memorandum is being distributed to regular recipients of IWG "R" publications to advise that no distribution of the paper as an "R" will be made. The paper will be on file, however, in Room 1B34 "M" Building, for review by those persons interested in the Middle East scrap problem.
